

What Has NTEU Done for Me Lately? *A lot.*

Thanks to your colleagues who support the union:

- You got a 2017 pay raise(2018 will be similar)
- Your retirement contributions did not increase (Congress proposed increasing them by 6 percent...a pay cut!)
- Your retirement formula did not change (A bill proposed changing it from high 3 to high 5)
- You retained your union rights and your contract (Union rights, including your contract, would have been eliminated at certain agencies)
- You enjoyed innovative workplace benefits like telework, AWS, transit subsidies and flexible spending accounts
- You had a safety net of topnotch workplace representation in the event of a problem

Make NTEU even stronger by joining your co-workers in supporting the union that fights for you.

NTEU FOR A STRONGER UNION
